

BOOK REVIEW GUIDE

Thank you so much for being part of my launch team. This book has truly been a labor of love. To ensure that every single review remains displayed within Amazon and helps inform others about the book's value, please follow the review guidelines I have created. Doing so will ensure that your review won't be rejected or taken down by Amazon.

Step 1

DOWNLOAD EBOOK

Please download the eBook from Amazon.

(A review written by someone that downloaded the book directly from Amazon makes it a "Verified Purchase-Review." These are very important.)

Step 2

FLIP THROUGH BOOK

IMPORTANT: Please do NOT leave a review right after your purchase.

Be sure to flip through at least 40-50% of your eBook, then close it and wait a couple of hours.

Step 3

PREPARE REVIEW

Write 1-2 short sentences on how this book is helpful and why others should consider reading it.

IMPORTANT: Please do NOT reference me as an acquaintance or someone you know as this will disqualify your review.

Please see review structure examples below to help you get started.

Step 4

SUBMIT REVIEW

Copy & paste your prepared review.

Because you downloaded the book directly from Amazon, your review will now be marked as "Verified Purchase," which will make it rank higher.

Step 5

LET ME KNOW

Be sure to let me know on Facebook that you placed your review, so I get a chance to publicly thank you for your incredible support.
